

# GitHub Packages

@navin22, @arya062000, @dhruvsaraiya and @nishantms

# Agenda

 Intro to GitHub Packages and 

 Get started with hands-on

 Dig a bit deeper with advance customization

# GitHub Packages

Your packages at home with their code

## Streamline your workflow

Simplify publishing packages and deployments by using Actions and Packages together

## Secure

Use the same user and team permissions to manage code and packages together

## Fast and reliable

Global CDN to deliver great performance

# npm

Critical part of the JavaScript world

## World's largest software registry

Million plus packages with billions of downloads everyday

## Home of JavaScript developers

Contribution from hundreds of thousands of open source developers and maintainers

## GitHub loves open source

Continued investment to make it better and secure for the community

# Hands On Lab

<https://github.com/GitHubConstellation2022/packages-workshop>
